User Stories

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Patient	Registration	USN-1	As a patient, I can register an account using my details.	Account created successfully.	High	Sprint-1
Patient	Login	USN-2	As a patient, I can login using email and password.	User dashboard is displayed.	High	Sprint-1
Patient	Doctor Search	USN-3	As a patient, I can view approved doctors.	Doctor list displayed successfully.	High	Sprint-2
Patient	Appointment Booking	USN-4	As a patient, I can book appointments online.	Appointment created successfully.	High	Sprint-2
Patient	Notifications	USN-5	As a patient, I can receive appointment updates.	Notifications displayed correctly.	Medium	Sprint-3

Doctor	Doctor Registration	USN-6	As a doctor, I can apply for doctor approval.	Application submitted successfully.	High	Sprint-1
Doctor	Appointment Management	USN-7	As a doctor, I can view appointment requests.	Appointment list displayed.	High	Sprint-3
Doctor	Status Update	USN-8	As a doctor, I can approve or reject appointments.	Appointment status updated.	High	Sprint-3
Administrator	Doctor Approval	USN-9	As an admin, I can approve doctor applications.	Doctor account approved.	High	Sprint-2
Administrator	User Management	USN-10	As an admin, I can manage users and doctors.	User and doctor records displayed.	Medium	Sprint-4

Conclusion

The Data Flow Diagram illustrates how information flows between patients, doctors, administrators, and the database. The user stories define the functional requirements of the Book A Doctor system and help guide development and testing activities.
